

HIGH LEVEL CONFERENCE ON TRADE INTEGRATION 2019

Enhancing trade integration in East African Community

25th -27th September, 2019 | Radisson Blu Hotel, Nairobi - Kenya

HIGH LEVEL CONFERENCE ON TRADE INTEGRATION 2019

Theme: “Enhancing trade integration in East African Community”

Date: 25th -27th September, 2019

Nairobi - Kenya

Programme

HIGH LEVEL CONFERENCE ON TRADE INTEGRATION 2019

CONFERENCE THEME

“Enhancing Trade Integration in East African Community”

25TH - 27TH September 2019

Radisson Blu Hotel
Nairobi Kenya

DAY ONE SEPTEMBER WEDNESDAY 25 th 2019	
08:00 - 08:30	Registration
08:45 - 09:00	East African Community Anthem
09:00 - 09:05	Welcoming Remarks, East African Community Deputy Secretary General
09:05 - 09:10	Remarks by Mr. Vimal Shah , Chairman, BIDCO Oil Refineries & EABC Director
09:10 - 09:15	Remarks by Hon. Adan Mohammed , Cabinet Secretary for EAC Affairs & Regional Development, Republic of Kenya
09:15 - 09:35	His Excellency Deputy President of The Republic of Kenya, Dr. William Samoei Ruto
09:35 - 10:50	Group Photo, Tour of the Exhibitions & Networking Health Break
10:40 - 10:50	VIP Press Conference (10 Minutes)
10:50 - 12:30	<p>PLENARY</p> <p>TOPIC NO 1: “A Reflection on the implementation of the East African Community Customs Union. What has worked and what has not?”</p> <p>Under the Protocol on the Establishment of the EAC Customs Union (Article 3), the objectives of the Customs Union are: further liberalization of intra-regional trade in goods on the basis of mutually beneficial trade arrangements among Partner states; promotion of efficiency in production within the EAC; enhancement of domestic, cross-border and foreign investment in the EAC; and promotion of economic development and diversification in industrialization in the EAC.</p> <p>The EAC Customs Union commenced in 2005 through a progressive and transitional arrangement of 5 years. The implementation has presented both success and challenges. The EAC is rated as the most integrating REC in Africa with the best performance in trade integration as per the integration index undertaken by AfDB, UNECA under the auspices of the African Union. The EAC Partner States have continuously registered average GDP growth of 5% which is above the sub-Saharan average of about 3%. The EAC intra trade stands at about 20% compared to the intra African trade of about 11%. There has also been positive trend in Revenue GDP ratio which negated the earlier fears of revenue loss at the commencement of the Customs union. EAC Partner States have continued to register revenue growth in both international and domestic taxes. On the flipside, there has been a number of impediments to the Customs union due to hesitation to transcend from national to regional trade approaches.</p> <p>This session seeks to reflect on the following:</p> <ul style="list-style-type: none"> (a) Actual implementation of the CU, key achievements, noted challenges experienced in its implementation. (b) The extent to which implementation of the Single Customs Territory facilitated in realizing the fully-fledged Customs Union (c) CU as a key contributor towards industrial development in the region (d) Noting that one of the intentions of the CU is to drive intra-regional trade, how has this objective been realized. (e) The implications of competing national interest to the implementation of the EAC Customs Union. <p>MODERATOR: Dr. Joy Kategekwa, Head of the United Nations Conference on Trade and Development(UNCTAD), Regional Office for Africa.</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Hon. Adan Mohammed, Cabinet Secretary for East African Community Affairs & Regional Development, Republic of Kenya • Amb. Erastus Mwencha, Chairman of the Board Trademark East Africa and Former Deputy Chairperson of the African Union Commission • Mr. Frank Matsaert, Chief Executive Officer, TradeMARK East Africa • Mr. Kenneth Bagamuhunda, Director General, Customs & Trade, East African Community Secretariat
12:30 - 13:30	<p>BREAK AWAY SESSION (A)</p> <p>TOPIC NO 2 (A): “Positioning of Women and Youth in Business in the East African Community”</p> <p>The discussion will focus on the following:</p> <ul style="list-style-type: none"> (a) A brief overview of the growth of Small-Scale Cross Border Trade in EAC, with a focus on Small Scale Women Cross Border Traders and Youth, this will include the Cross-Border Trade; (b) Noting the increasing contribution of women in trade, does the existing trade policy framework adequately provide for an enabling environment; (c) Reflection of existing trade regimes (STR) and trade facilitation initiatives to facilitate cross border trade; (d) Challenges encountered by Women and Youth in cross border business; (e) From a regional policy perspective, what are the possible opportunities for Women and Youth to contribute positively to the business growth in EAC. <p>MODERATOR: Ms. Annet Semuwemba, Deputy Executive Director, Enhanced Integrated Framework (EIF), World Trade Org</p>

One People, One Destiny

	<p>PANELISTS:</p> <ul style="list-style-type: none"> • Mr. Dicksons Kateshumbwa, Commissioner Customs, Uganda Revenue Authority, Chairman of World Customs Organization (WCO) Council & Chairman of the African Union Sub Committee of the Director Generals for Customs • Ms. Dorothy Tuma, Former Chairperson, East Africa Women In Business Platform • Eng. Patrick Obath, Kenya Private Sector Alliance (KEPSA) • Dr. Abdullah H. Makame [PhD], Chapter Chairperson of The United Republic of Tanzania in the East African Legislative Assembly [EALA]
12:30 - 13:30	<p>BREAK AWAY SESSION (B)</p> <p>TOPIC NO 2 (B): “Containing illicit trade in the East African Community; A call for partnership between the public and the private sector”</p> <p>Illicit trade is a global phenomenon. Despite the numerous legislative and regulatory efforts to streamline trade in the EAC region, the plague of illicit trade has continued to thrive. The existence of various laws to curb the vice has not done much to stop illicit trade as such crimes have been treated in the past as victimless crimes with law enforcers dismissing such cases as petty crimes.</p> <p>Illicit trade undermines the concept of a free and open marketplace which is fundamental to improving competitiveness, increasing investment, generating jobs and improving the economic situation (Vision 2030) in all the EAC Partner States.</p> <p>The main focus of the conference is to seek practical solutions on the ever-growing issue of counterfeits, piracy and other forms of intellectual property infringement, smuggling, substandard goods, transit fraud and dumping and trade in prohibited goods and products.</p> <p>Key to these discussions is the current status of the existing regional and national regulatory frameworks for combating various forms of illicit trade and strategies on how to strengthen them. The session is trying to address how the region can achieve effective enforcement, including the need to set-up inter-agency cooperation's at national and regional level; the long-existing contributors to illicit trade, information exchange and consumer education.</p> <p>MODERATOR: Mr. Eugene Torero, Director, Trade Policy and Facilitation. TradeMARK East Africa</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Dr. Hermogene Nsengimana, Secretary General, African Organisation for Standardisation (ARSO) • Mr. Kevin Safari - Commissioner Customs and Border Control, Republic of Kenya • Ms. Heba Diab Ph.D., Export Control and Border Security (EXBS) Advisor, U.S. Embassy Nairobi • Ms. Caroline Mutayabarwa, Head of Capacity Building and Training African Tax Administration Forum (ATAF)
13:30 – 14:30	LUNCH BREAK
14:30 – 15:45	<p>PLENARY</p> <p>TOPIC NO 3: “Role of Regional Economic Communities (REC's) in the context of Africa Continental Free Trade Area (AfCFTA)”</p> <p>RECs are key building blocks for economic integration in Africa and also key actors working in collaboration with the African Union (AU), in ensuring among others trade integration, industrial development and peace and stability in their regions. As the building blocks and implementing arms of the African Union (AU), the RECs have been central to various transformative programs of the continent, including the New Partnership for Africa's Development (NEPAD) adopted in 2001, and the AU's Agenda 2063 adopted by its Summit in January 2015, and its first ten-year implementation plan adopted by the 25th Summit of the AU in June 2015.</p> <p>The subject intends to further interrogate the role of the RECs, in the ongoing AfCFTA process. While noting their achievements as a bloc, and in the current contexts of the engagement with other agreements such as the TFTA. What challenges exists and what good practice should be considered and taken into consideration by the AfCFTA. Should there be a formal structure of engagement in the implementation of the AfCFTA? How will the AfCFTA Secretariat leverage on the already ongoing programmes in the RECs?</p> <p>MODERATOR: Dr. Caiphas Chekwoti, Ph.D, Trade Policy Expert, TRAPCA</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Dr. Chris Kiptoo, Principal Secretary, Ministry of Trade, Republic of Kenya • Mr. Prudence Sebahizi, Chief Technical Advisor on the African Continental Free Trade Area and Head of AfCFTA Unit at African Union Commission • Prof. Jaime de Melo, University of Geneva and FERDI, expert on regional integration • Dr. Abdullah H. Makame [PhD], Chapter Chairperson of The United Republic of Tanzania in the East African Legislative Assembly [EALA] • Mr. Chris Diaz, Director EABC and Group Director BIDCO Africa
15:55 – 17:25	<p>BREAK AWAY SESSION (C)</p> <p>TOPIC NO 4 (A): “Digitalised economy and e-commerce in East African Community”</p> <p>The East African Community Partner States have made tangible progress in introducing and adoption of new technologies in the public and private sector. Mobile-enabled platforms are increasingly changing traditional value chains and elimination of inefficiencies in conventional business models across the region.</p> <p>Globally there is transformation through digitalization leading to what is referred to as disruptive technology. The emergence of e-commerce championed particularly by the private sector has reawakened the need for the public sector to adapt to this reality. In East Africa the adaptive rate has been a bit sluggish in utilization of new technologies such as blockchain, digital currency etc.</p> <p>The evolvement of the mobile money in the financial sector has been an eye opener in East Africa in an inclusive financial sector development. The increasing trade through e-commerce such as Alibaba and Amazon create a new phenomenon on which national and regional policy framework should be designed.</p> <p>The discussion should look at:</p> <ol style="list-style-type: none"> Transformations that are required to fully implement and derive benefits of digital technologies. Technologies are relevant for developing economies. Boosting cross border digital trade. Financial inclusion using available technologies.

	<p>(e) Limitations of the digital economy. (f) Available for the youth in the region.</p> <p>MODERATOR: Mr. Nesbitt Nicholas, Chairman of the East African Business Council</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Mr. Kwame Rugunda, Chief Executive, CryptoSavannah, Blockchain Specialist • Mr. Alban Odhiambo, Senior Director, Trade Environment, TradeMARK East Africa • Mr. Kevin Safari - Commissioner Customs and Border Control, Republic of Kenya
15:55 – 17:25	<p>BREAK AWAY SESSION (D)</p> <p>TOPIC NO 4 (B): “Elevating Small & Medium Business Enterprises as contributors to East African Community economies”</p> <p>Micro, Small and Medium-sized Enterprises (MSMEs) are the driving force of economic growth, job creation, innovations, regional and national development, social cohesion and play a great role in nurturing women and young entrepreneurs in EAC. MSMEs in EAC create over 60 percent of employment opportunities and account for the largest proportion of newly created jobs e.g. in Kenya and Tanzania, MSMEs account for 92 percent and 62 percent respectively of the newly created jobs. In addition, MSMEs also provide goods and services that are better adapted to local markets; and; stimulate innovation, entrepreneurship, technology development and research, among other contributions.</p> <p>Development of small and medium scale industries is an important strategy and priority area in the achievement of the EAC industrial development as shown in article 80, of the Treaty Establishing the Community. The importance of the MSMEs sector in the transformation of EAC economies has further been well articulated in the East African Industrialization Policy for the period 2012-2032 and in the EAC Development strategy for the period 2017-2021. Most of the MSME enterprises in EAC (over 90 percent) are micro enterprises.</p> <p>Despite their important role in entrepreneurial development and employment creation, about 60 percent of MSMEs in EAC are engaged in low value adding activities in the retail and wholesale segments of the economy. This is further exacerbated by the MSME's being primarily in the informal sector which is out of reach of the Governments. Contribution of MSMEs to the national Gross Domestic Product (GDP) in EAC has been low, at about 27 percent.</p> <p>In addition, by virtue of their sizes and lack of economies of scale, MSMEs in EAC face particular obstacles in the area of start-ups, tax administration and access to finance. The impact on and contribution of MSMEs to inclusive, sustained growth and structural transformation in the region will remain marginal unless clear interventions aimed at removing obstacles including restrictive legal, administrative and regulatory requirements; and creating coherent and competitiveness business environment are implemented in all EAC Partner States.</p> <p>This session looks into:</p> <ol style="list-style-type: none"> Initiatives to formalize MSMEs and financing opportunities. The practical experience with regard to business environment, financing, taxation and markets (cross border and national) among other. The legal and policy framework to promote MSME's in EAC and what and how they should be done. The regional aspects to promote MSMEs especially in value addition and how to elevated MSMEs as meaningful contributors to East African economies. <p>MODERATOR: Ms. Mary Wamae, Executive Director, Equity Bank</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Dr. Simon Githuku, Expert in Trade & Foreign Policy, Kenya Manufacturers Association (KAM) • Ms. Prudence Ukonika, Chief Executive Officer (CEO), Bella Wines • Ms. Mary Ngechu, Managing Director, Plast Packaging Limited • Mr. Hannington Amol, Chief Executive Officer, East Africa Law Society • Ms. Jennifer Gache, Senior Industrial Engineer, East Africa Community Secretariat (EAC)
17:25 – 17:40	COFFEE AND NETWORKING
19:00 – 21:30	GALA DINNER BY INVITATION
DAY 2: THURSDAY SEPTEMBER 26th 2019	
09:00 – 10:30	<p>PLENARY</p> <p>TOPIC NO 5: “Infrastructure development in East African Community as a driver for trade and industry”</p> <p>Interlinked infrastructure plays a vital role towards regional integration and trade facilitation. The region has seen in recent times an unprecedented level of investment in infrastructure development across the Partner States with priorities in energy, rail, roads, ports, civil aviation and airports and telecommunications. However, the ongoing infrastructure developments cannot fully address the capacity shortfalls accumulated over many years across the subsectors. The burden of inadequate infrastructure will therefore affect the region for some time and hence a major constraint to regional integration and development that must be addressed.</p> <p>The EAC Heads of State, in realization of the inadequate infrastructure in the region have firmly committed to implement a package of regional infrastructure priorities with the objective of interconnecting EAC Partner States and bringing down the cost of doing business and trading in the region. The current price tag for these projects exceeds 100 billion US dollars for the period up to 2024. The high cost of transport, energy, airfares and freight rates have been estimated to add nearly as much as 50% of the total cost of goods sold/traded in the region. This scenario must be reversed if EAC is to become a competitive and leading economic community anchored on trade, manufacturing and industrialization as envisaged within the Customs Union and the Common Market Protocols</p>

	<p>The session will focus on the following:</p> <ul style="list-style-type: none"> (a) The key regional policies, projects on infrastructure development and their implementation progress, (b) Addressing the high cost of transport and logistics in the region (c) The role of the private sector/Public Private Partnerships (PPP) in promoting infrastructure development in the region. What are the key enablers and challenges to unleash this potential funding source for infrastructure development? (d) To what extent are governments in the region cooperating in implementing both hard and soft infrastructure – financing, projects prioritization, user integration, inter-connectivity/inter-operability, capacity and skills development, sharing of planning data and information among others? (e) The role of Transport Corridors Authorities as catalysts of infrastructure development, user interface, policy harmonization and logistics improvement to bring down the costs of transport in the region. (f) The great potential of water and inland waterways transport in the region. Are the EAC Partner States investing/benefiting from this mode of transport; (g) Landlocked Partner States and their transport facilitation challenges in the framework of the Customs Union <p>MODERATOR: Mr. Philip Wambugu, Consultant & Former Director Infrastructure, East African Community Secretariat</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Mr. Frank Matsaert, Chief Executive Officer, TradeMARK East Africa • Dr. Arch. Daniel Manduku, Managing Director, Kenya Ports Authority (KPA) • Mr. Patrick Kanyimbo, African Development Bank Regional Integration Coordinator at AfDB East African Regional Hub • Dr. Eng. Kamugisha Kazaura, Director of Infrastructure, East African Community Secretariat.
10:30 – 11:00	Launch of the EAC One Stop Border Post (OSBP) Performance Measurement Tool & health break
11:00 – 13:00	<p>BREAK AWAY SESSION (A)</p> <p>TOPIC NO 6 (A): “Resolving Trade Disputes in East African Community”</p> <p>The Customs Union has created a large market consisting of six Partner States and in the process of trading amongst each other, trade disputes emerge. EAC Partner States are also members of the WTO which has an elaborate dispute settlement mechanism. However, the WTO dispute mechanism is complex, sometimes lengthy and costly for LDCs participation. LDCs have hardly registered any trade dispute since its inception. In addition, Partner States have not adequately put in place legal mechanisms to operationalize dispute settlement rules of WTO.</p> <p>Measures to resolve trade disputes in the East African Community are provided for by both policy and law. Article 24 of the Protocol on the Establishment of the East African Customs Union (CU Protocol) establishes an East African Community Committee on Trade Remedies (Trade Remedies Committee), to handle matters pertaining to rules of origin, anti-dumping measures, subsidies and countervailing measures. Others are safeguard measures, dispute settlement and any other matters referred to it by the Council of Ministers (Council). The Customs Management Act 2004(CMA) also provides a robust framework through which the Directorate of Customs as established by the Council at the EAC Secretariat (Directorate), and Partner States Commissioners for Customs facilitate the management and administration of customs and related matters.</p> <p>The national laws of Partner States mainly focus on trade disputes within national boundaries whereby tax tribunals and commercial courts have been established to adjudicate on such matters. However cross border trade disputes remain a challenge in the integration process arising from the reoccurrence of NTBs.</p> <p>The East African Community Court of Justice (Court) has judicial mandate on the interpretation of the Treaty establishing the Community. This is being augmented by the extended jurisdiction of the court through a protocol adopted in 2015 however not implemented. Although there has been an increasing number of cases presented to the court, those that are trade related have been minimal.</p> <p>The session will examine:</p> <ul style="list-style-type: none"> (a) the relevance and effectiveness of the measures to resolve trade disputes in the East African Community instruments (b) The role of the EACJ and how it can be further involved in trade dispute settlement in EAC (c) The linkage between the National and Regional Trade dispute mechanism (d) The overlaps and synergies between the trade dispute mechanism of WTO, AfCFTA, TFTA and the RECs (e) Interventions and measures to improve on the legal, institutional and operational mechanisms to resolve trade disputes. <p>MODERATOR: His Lordship, Justice Dr Emmanuel Ugirashebuja, President of the East African Court of Justice (EACJ)</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Dr. Asa Mugenyi, Chairperson of the Tax Appeals Tribunal, Republic of Uganda • His Lordship Dr. Fauz Twaib, Judge of the High Court, United Republic of Tanzania • Hon. Dr. Anthony Kafumbe, Counsel to the Community, East African Community Secretariat • Mr. Francis Gimara, Advocate Former President of the Uganda Law Society (ULS) and a Former Member of the governing Council of the East Africa Law Society (EALS), Head of ALP East Africa, Founder of the East African Centre for Trade Policy and Law (EACTPOL)
11:00 – 13:00	<p>BREAK AWAY SESSION (A)</p> <p>TOPIC NO 6 (B): “Impact of the Customs Union on investment in East African Community”</p> <p>One of the objectives of a Customs Union is to enhance domestic cross border and foreign investment in the community due to reduced tariff barriers, elimination of internal tariffs, trade linkages, availability of raw materials and the larger market among others.</p> <p>The EAC has incorporated, as contained in the EAC Development Strategy, investment promotion and private sector development with the aim of achieving the free movement of people, capital, labour, services and the right of establishment and residence. In addition, the EAC hopes to promote a balanced and competitive industrial or manufacturing sector, promote participation of all stakeholders, including the private sector, women and civil society.</p> <p>The session seeks to:</p> <ul style="list-style-type: none"> (a) Explore means of leveraging the private sector to use the opportunities presented by the Customs Union for cross border investments and value chain development in the EAC region. (b) Examine strategies to be adopted to encourage cross border investments and value chain development in the EAC region; (c) Assess the effectiveness of the EAC policies and instruments attracting FDI; (d) Assess the harmonization of key legal and institutional framework to facilitate investment in the EAC region; (e) Identify further Trade Facilitation measures to attract investment in the region.

Implemented by:

One People, One Destiny

	<p>MODERATOR: Dr. Margreth Chemengich, Consultant, Trade Expert</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Hon. Eng. Stella Manyanya, Deputy Minister of Trade and Industry, Republic of Tanzania • Ms. Diane Sayinzoga, Head of Special Economic Zones & Exports, Rwanda Development Board • Mr. Brook Adam, Investment Lead, Office for Economic Growth and Integration, USAID Kenya and East Africa • Dr. Moses Ikiara, Managing Director, Kenya Investment Authority
13:00 – 14:00	LUNCH BREAK
14:00 – 15:30	<p>PLENARY</p> <p>TOPIC NO 7: “Creating value chains in manufacturing and agricultural production in East African Community: A paradigm shift”.</p> <p>A competitive manufacturing sector is central to socio economic transformation and poverty reduction in developing countries. The EAC Partner States, like many developing countries, aspire to transform their economies to a modern and industrialised status that can sustainably generate sufficient outputs to satisfy both domestic and export markets and rapidly increase per capita incomes to improve the living standards of their people.</p> <p>The role of manufacturing as a driver of socio-economic growth however remains minimal; on account of generally low investment that targets these sectors and limited awareness on investment opportunities in the same. Contrary to expectation, the share of manufacturing to Gross Domestic Product (GDP) has in fact been contracting from 9.8% in 2000 to 8.5% currently, thus not leading to the desired structural change towards manufacturing, falling short again of the regional target of 25% by 2032, while the Manufacturing Value Add (MVA) grew slower at a rate of 4.7% on average per annum since 2010 a drop from the average of 5.3% per annum between years 2005 and 2010.</p> <p>During the same period, manufacturing only accounted for 45% of manufactured exports, making the region vulnerable to fluctuations in demand and commodity prices. In addition, resource-based and low-tech products still account for 78% of EAC’s manufactured exports including agro-processing, metals and petroleum, which are heavily influenced by global pricing.</p> <p>To address the challenges of industrial development in the region, the EAC has formulated a Regional Industrialization Policy and Strategy which aims to reverse the situation and to guide the region towards the development of the EAC industrial sector by measures such as promoting the development of regional value chains; strengthening the business and regulatory climate; enhancing access to finance; facilitating the development of relevant technical skills; promoting research, development and innovation and increasing access to markets among others.</p> <p>The region has identified strategic areas for industrial development in the region that bear comparative advantages and where significant private sector investment is needed to unlock potentials. These strategic sectors include: agro-processing and agri-business; mineral processing; pharmaceuticals; construction materials; fertilizers and agro-chemicals as well as the strengthened leather, textiles and automotive sectors.</p> <p>With the development of these sectors the region has the following targets:</p> <ol style="list-style-type: none"> raise the manufacturing share of GDP to at least 25 percent from an average of about 10 percent, expand trade in manufactures by increasing <ol style="list-style-type: none"> intra-regional manufacturing exports relative to total manufactured imports in to the region to at least 25% by 2032 and the share of manufactured exports relative to total merchandise exports to at least 60% transform micro small and medium enterprises (MSMEs) into viable and sustainable business entities capable of contributing to at least 50% of manufacturing GDP and, create an additional 2.3 million jobs through manufacturing. <p>The session aims to;</p> <ol style="list-style-type: none"> Guide on how the set targets can be achieved Provide the required paradigm shift in the developing of manufacturing regional value chains. Identify the critical challenges in value chain development Draw lessons from success stories in manufacturing and value chain development Discuss the agrarian reforms that will propel the EAC into commercialization of its agriculture sector. <p>MODERATOR: Mr. Faustin Mbundu, Managing Director, CafeRwa</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Dr. Stephen Kargbo, UNIDO representative to Tanzania, Mauritius and East African Community • Mr. Vimal Shah, Chairman, BIDCO Oil Refineries, Republic of Kenya • Professor Charles Kwesiga, Executive Director of Uganda Industrial Research Institute (UIRI) • Ms. Agnes Konde, CEO, Msingi East Africa Ltd and EABC Elite Golden Circle member
15:40 – 17:10	<p>BREAK AWAY SESSION (C)</p> <p>TOPIC NO 8 (A): “Integrating South Sudan in the East African Community”</p> <p>The process of integrating South Sudan into the EAC commenced in March 2016 when it submitted instruments of ratification. The EAC Partner States view South Sudan as a valuable partner for the overall development of the region and its accession will open new markets for the Partner States and create economic opportunities to the people of South Sudan.</p> <p>It is notable that joining the EAC Customs Union has implications on South Sudan’s economic landscape and Customs autonomy since a Customs Union brings States together to create one single market and, therefore, the Common External Tariff (CET) is applicable to all the Partner States.</p> <p>The Republic of South Sudan requested a transition period of 3 years to ready itself before it assumes its role, obligations and become fully functional as a member Partner State through adoption and implementation of EAC instruments. Although the transition period ends October 2019, the Republic of South Sudan has been faced with political challenges which have diverted their focus from implementing the EAC programmes.</p>

	<p>The session aims to;</p> <ul style="list-style-type: none"> (a) Identify immediate and long-term recommendations that support the integration of the Republic of South Sudan in the EAC. (b) Assess the readiness of the Republic of South Sudan to implement EAC Customs Union and Common Market Instruments and other international trade conventions. (c) Identify the EAC Secretariat and Partner States interventions to integrate the Republic of South Sudan. <p>MODERATOR: Mr. Richard Kamajugo, Chief Operating Officer, TradeMARK East Africa</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Hon. Aggrey Tisa Sabuni, Presidential Advisor on Economic Affairs, Republic of South Sudan • Hon. Deng Nhial Gai, Member of Parliament, East Africa Legislative Assembly (EALA) • Amb. Lt. Gen. (Rtd) Agustino S.K. Njoroge, Interim Chairperson, Joint Monitoring & Evaluation Commission of the Republic of South Sudan • Hon. Abdikadir Aden Omar, Member of Parliament, East African Legislative Assembly
15:40 – 17:10	<p>BREAK AWAY SESSION (D)</p> <p>TOPIC NO 8 (B): “The Role of Information Communication Technology (ICT) in Trade Integration in the East African Community”</p> <p>Regional integration is aimed at fostering socio-economic and political development. To achieve regional integration, it is critical to enhance the flow of information within and between countries through application of Information and Communication Technologies (ICTs). Information and Communications Technology (ICT) sector is powering various activities, such as banking, buying and selling goods and services, and access to health, education and entertainment. ICT has also turned out to be disruptive because of the ever-changing environment.</p> <p>The EAC Partner States have embraced the use of ICT as a key tool for processes and data exchange of information and storage in all sectors. Within the ICT sector, there is a trend of falling prices and higher penetration in both mobile telephony and broadband internet. Recent installation of broadband ICT infrastructure connecting the region to the rest of the world has remarkably increased ICT penetration in the EAC. Communications technology has spurred product innovation in the financial sector and the majority of East Africans can now access the internet through their mobile phones. Advancement of technology adopted by the business sector including electronic Commerce and other digital services provides an opportunity for Government and the trading community to leverage service delivery.</p> <p>The session aims to;</p> <ul style="list-style-type: none"> (a) explore how existing and future technologies can be utilized by Government and the trading community in facilitating trade and regional integration in the EAC region. (b) Examine adoption, optimization and sustainability of the technology investments. (c) Assess impact of ICT on the trade and the supply chain. (d) Assess EAC preparedness with regard to disruptive technologies. (e) Examine SMEs utilization of technology to gain access to regional market. <p>MODERATOR: Professor Elijah Bitange Ndemo, Senior Lecturer, University of Nairobi, Republic of Kenya</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Mr. Audace Niyonzima, Commissioner General, Burundi Revenue Authority (OBR) • Ms. UWAMARIYA Rosine's, Commissioners for Customs, Republic of Rwanda • Mr. Herculs Bizure, Associate Director, EY Uganda • Mr. Simon Hochstein, Project Manager at GIZ in Tanzania, East African Community ICT Excellence Centre and Private Sector Engagement
17:10 – 17:40	COFFEE AND NETWORKING
17:40 – 19:30	COCKTAIL AND LAUNCH OF EU EAC MARKUP WEB SITE BY INVITATION
DAY 3: FRIDAY SEPTEMBER 27th 2019	
09:00 - 10:30	<p>PLENARY</p> <p>TOPIC NO 9: “Establishing Trade Preferences with Developed Economies (Fears & Benefits)”</p> <p>The current global trends whereby developed economies are moving away from multilateral to unilateral trading systems has created a distortion in the world trade order. This has resulted into an imbalance in the trade relations between the developed and developing economies. A lot of questions are being raised on whether LDC's should pursue reciprocal trade arrangements with developed economies. The Doha Round under the WTO has been put to disarray by the inward trade policy measures being pursued by the global trading powers.</p> <p>EAC has been actively engaged in negotiations of Preferential Trade Arrangements with the European union and the United States of America. China, Turkey, India and European Free Trade Area Association have approached the EAC to enter into a trade preference arrangement. There are however fears that opening up vulnerable economies to such arrangements will undermine the ongoing efforts on industrialization and economic growth. The other parties portend that the trade arrangements will strengthen regional integration to boost production and attract investment.</p> <p>The session seeks;</p> <ul style="list-style-type: none"> (a) To assess the effect of the trade preferences between EAC with Developing and emerging economies. (b) Propose best options for EAC given the WTO requirement to have reciprocal trade under the MFN principle (c) Examine the fears of PSs on industrialization, agriculture and export promotion. (d) Impact of BREXIT on the EAC trade with EU and UK (e) Spillover on the US/China trade wars to the less/developing Economies. <p>MODERATOR: Mr. Francois Kanimba, Former Minister of Trade & Industry, Republic of Rwanda</p>

10:30 – 11:00	HEALTH BREAK
11:00 – 12:30	PLENARY TOPIC NO 10: “Private Sector as a key driver of the East African Community integration” <p>Private Sector is recognized as central to integration and promoting economic growth in the EAC Region. The East African integration is people sector led and people led. In recognition of this principle, the treaty puts a lot of emphasis on private sector participation in the integration process. A number of programs and collaboration with the private sector are on-going at regional and national level. A number of private sector association have been admitted as observers in the EAC. The EAC also has in place a private sector development strategy which spell out the scope and collaboration with the private sector. There are however challenges that hamper a conducive business environment including the recurring non-tariff barriers and other barriers to trade, which have raised uncertainty on whether the existing mechanisms that provide for private sector engagement are actually effective. The involvement of the private sector is evolving into broader issues including Private Public Partnership to address infrastructure challenges in the region. There are also new initiatives on promotion of local content in both goods and services provided by the private sector to government projects. EAC has witnessed both local and cross border investment as a result of the anticipated benefits of the Common Market.</p> <p>The session seeks to;</p> <ol style="list-style-type: none"> Examine what more can be done by private sector on policies and processes to promote trade integration; Given that trade in services contribute nearly 50% of the GDPs of the East African Economies, how can the private sector become regional active in strengthening the service sector? Assess the trade environment in EAC and how it has impacted on private sector development. What efforts and programs are in place to promote private sector at regional and national level? Practical experiences and challenges <p>MODERATOR: Peter Mathuki, Executive Director, East African Business Council</p> <p>PANELISTS:</p> <ul style="list-style-type: none"> • Mr. Denis Karera, East Africa Business Council, Vice Chairman Rwanda • Mr. Audace Ndayizeye, Chairman, Burundi Federal Chamber of Trade & Industry • Mr. Fred Seka, President of Federation of Freight Forwarders Association, Republic of Rwanda • Ms. Waturi Matu, Senior Director, Trade Environment, TMEA • Dr. Kirsten Focken, Cluster Coordinator, GIZ East African Community Programme

Launch of EU EAC MARKUP Web Site

Occasion: High Level Conference on Trade Integration 2019: "Enhancing Trade Integration in the East African Community"

Radisson Blu Hotel, Nairobi/Kenya

Thursday, 26 September 2019, 17:40 – 19:30 at a networking event

17:40	<ul style="list-style-type: none"> -Introductory Remarks by Dr Kirsten Focken, Cluster Coordinator -<i>Invite and introduce key Partners (EU, EAC, EABC, Representatives of Partner States focal institutions)</i> -Remarks by Fausto Perini, Programme Manager, EU Delegation to Tanzania and the EAC -Remarks by the Director General Customs and Trade, EAC Secretariat <i>(DG to Invite Chair of the Conference/Chief guest to launch the website)</i>
17:50 – 18:00	Launch of the web site with a toast by the Chair of the High Level Trade Integration Conference, witnessed by EAC representatives, EABC representative, representative of the European Union, representatives from Partner States
18:10 – 18:20	A glance at the web site, guided by the MARKUP M&E and Communications expert
18:20 - 19:30	Networking and exchange among participants

ABOUT THE CONFERENCE

EAC embarked on a fresh effort on regional integration in 1999 focusing on four pillars: The Customs Union, the Common Market Protocol, the Monetary Union and the Political Federation. The success of the subsequent three pillars was premised on the implementation of the EAC Customs Union. Since 2000 the EAC has been implementing the Customs Union which has witnessed the removal of internal tariffs, minimization / elimination of non-tariff barriers, application of common external tariff and simplified trade regime to encourage intra-EAC trade. The Customs clearance processes have been modernized through automation, application of non-intrusive measures in enforcement and compliance to the laws and more importantly the implementation of the Single Customs Territory.

In view of above efforts and considering the set objectives of the Customs Union which are to further liberalization of intra-regional trade in goods on the basis of mutually beneficial trade arrangements among member states; promotion of efficiency in production within the EAC; enhancement of domestic, cross-border and foreign investment in the EAC; and promotion of economic development and diversification in industrialization in the EAC, the High Level Conference on Trade Integration has been organized to reflect on the implementation of the Customs Union. It aims to assess what has been achieved, challenges and propose measures to enhance trade in the EAC.

MESSAGE FROM DIRECTOR GENERAL – CUSTOMS & TRADE

The implementation of the Customs Union has been a long demanding but dynamic process. We started off with the negotiations to revive the East African Community giving way to the establishment of the EAC Customs Union in 2005. The EAC Customs Union Protocol basically outlines the vision of the Customs Union. As we embark on this conference which serves as a pre-cursor to the 15th Anniversary of the Customs Union, it is an opportune moment to highlight the milestones attained so far.

Notably, the EAC has operationalized the Single Customs Territory which has facilitated faster clearance and movement of cargo in the region, enhanced Customs systems interconnectivity which has improved information sharing, elimination NTBs, operationalized trade dispute settlement system and the One Stop Border Posts thus reducing border crossing time. In addition, the EAC has established a regional legislative body that enact necessary laws, has a regional court which has established strong linkages with the private sector and the third party EAC trade cooperation under the COMESA-EAC and SADC Tripartite FTA, AfCFTA, EPA with EU, TIFA with US as well as trade cooperation arrangements with China.

The Trade implemented a common Customs law and applied by all Partner States, a Common External Tariff, Customs Training curriculum, Common Integrity Programme and has strengthened cooperation with development Partners.

A BRIEF OVERVIEW OF TRADE PERFORMANCE IN EAST AFRICA COMMUNITY.

The East African Community (EAC), with a population of about 168.2 million and a combined GDP of US\$ 155.2 billion is one of Africa's fastest growing regional blocs. Growth in the EAC is driven by a progressive manufacturing sector characterised by agro-processing and industrial production and exports. The Export Sector is dominated by tea, coffee and horticulture. The region possesses significant amounts of extractive resources including oil and gas, high value minerals and renewable energy.

Key developments during the year 2019 with potential to influence future trade and investment outcomes include the positive economic growth of the region that positions the EAC as a trade and investment hub; the growing Global Value Chains that impact on agricultural production and industrial processes; logistical infrastructural development; and, the Africa Continental Free trade Area (AfCFTA). The East African Economy expanded at 5.7 percent in 2018, up from 5.6 percent in 2017.

Intra-regional exports grew by 5.6 percent to USD 3.2 billion in 2018 from US\$ 2.9 billion in 2017. Noticeably, exports from all Partner States grew with the exception of South Sudan during the year. Burundi experienced 44.3 percent growth in exports while exports from Uganda, Tanzania and Rwanda grew by 11.4 percent, 9.5 percent and 6 percent respectively during the year. Exports from Kenya to the other Partner states experienced a modest growth of 0.1 percent in 2018.

Despite the increased total trade, the region continues to face challenges related to the trade performance. These include: vulnerability of the agricultural sector to the vagaries of nature; dependence on exports of primary products; and, the rising oil prices. As such, there is need to reduce dependence on imports of fossil fuels, motors, crude palm oil, textiles and capital items. Initiatives such as fast tracking the production of EAC oil and gas reserves, assembly of motors in the region and improvement of agricultural production through irrigation, post-harvest handling and value addition should be explored.

Foreign Direct Investments into East Africa decreased by 15.9 percent to USD 5.7 billion in 2018 from US\$ 6.8 billion in 2017. Inflows to United Republic of Tanzania increased by 2.3 percent to US\$ 3.1 billion while inflows to Burundi and Rwanda decreased by 76.8 percent and 11.5 percent to US\$ 15.1 million from US\$ 65.1 million in 2017 and to US\$ 1015.3 million in 2018 from US\$ 1147.7 million in 2017, respectively. FDI into Kenya, South Sudan and Uganda fell by 32.4 percent, 11.7 percent and 51.8 percent to US\$ 485.5 million, 408.6 million and US\$ 630.6 million in 2018, respectively. Overall, FDI inflows to the EAC were concentrated in manufacturing, construction and services sectors. FDI into manufacturing and construction amounted to US\$ 2.1 billion and US\$ 1 billion in 2018, respectively. China and India continued to be the major sources of FDI into the EAC with inflows amounting to US\$ 1.1 billion and US\$ 281.02 million respectively. Total intra-EAC investments decreased by 20.8 percent to USD 152.7 million in 2018 from US\$ 192.9 million in 2017.

This was attributed to increased infrastructure investment in roads, rail and electricity, increased private consumption, as well as recovery of commodity exports buoyed by improved weather conditions. The construction sector improved in the whole of the EAC. There was also remarkable expansion of the services sector, particularly information and communication technology as well as manufacturing. All Partner States with exception of South Sudan experienced higher growth in 2018. Burundi's economy grew by 3.8 percent up from 1.3 percent in 2017. Rwanda's economy experienced the highest growth in the region expanding by 8.6 percent in 2018 up from 6.2 percent in 2017. Kenya, Tanzania and Uganda also grew by 6.3 percent, 6.9 percent and 5.6 percent in 2018 up from 4.9 percent, 6.8 percent and 4.8 percent, respectively in 2017. Merchandise trade grew by 11.7 percent to USD 52.4 billion in 2018 from US\$ 46.9 billion in 2017 as a result of increase in the import bill and a fall in exports during the year. Total EAC exports decreased by 4.7 percent to USD 14.0 billion in 2018 from USD 14.7 billion in 2017 of which, intra-EAC exports accounted for 22.4 percent. The decline in exports was attributed to low international prices of mainly agricultural commodities on account of higher production resulting from improved weather conditions coupled with a drop in the export of primary minerals. This was due to a fall in international demand resulting from the declining economic growth in China and the Far East. As a result of all this, earnings from coffee, tea and minerals fell by more than 24 percent during the year.

Exports to EAC and SADC amounted to USD 3.1 billion and USD 1.9 billion respectively in 2018. This signified the growing importance of the EAC and SADC markets. The increase in exports to SADC excluding Tanzania was attributed to the increased benefits arising from the membership to the EAC-COMESA- SADC Tripartite. The main products exported by the Region included agricultural products especially maize, sugar, rice, coffee and tea as well as manufactured goods. Outside the Africa Continent, the EU was our biggest trading partner and exports to the EU increased only by 6.5 percent to USD 2.5 billion in 2018 from USD 2.3 billion in 2017 and constituted about 17.5 percent of total EAC exports. However, exports to the USA and the rest of the world fell by 20.6 percent and 12.7 percent respectively during the year mainly due to falling demand.

Total EAC imports grew by 19.2 percent to US\$ 38.3 billion in 2018 from US\$ 32.2 billion in 2017. Imports from the EU amounted to USD 4.3 billion and accounted for about 11.3 percent, while imports from the rest of the world declined but still constituted 44.3 percent of total imports. The main source of imports from the rest of the world were Asia and the middle East signifying the importance of countries like China, India and UAE as trading partners.

The increase in imports was mainly under petroleum products arising from the higher global crude oil prices to USD73 per barrel on average during the year. During the year, imports of petroleum products, vegetable edible oil, motors, machinery and medicals constituted over 60 percent of total imports. Overall, the region continued to register a trade deficit with the rest of the world in 2018 partly due to an increase in imports into the region. The deficit for the EAC increased by 39.4 percent to USD 24.3 billion in 2018 from USD17.4 billion registered in 2017.

The composition of EAC trade continued to be dominated by agricultural commodities, namely coffee, tobacco, cotton, rice, maize and wheat flour. However, manufactured goods such as cement, petroleum, textiles, sugar, confectionery, beer, salt, fats and oils, steel and steel products, paper, plastics and pharmaceuticals were also traded across the Region.

EAC intra-regional imports grew by 13.9 percent to USD 2.8 billion from USD 2.5 billion in 2017 and accounted for 7.4 percent of total EAC imports. Kenya's imports from the rest of the Partner States continued the growth experienced in the previous year. Imports into Kenya grew by 14.7 percent to USD 676.5 million. The increase was, to a large extent, driven by higher imports from Uganda and Tanzania. Imports from Uganda were mainly milk, dry beans and raw materials for the preparation of animal feeds. Imports from Tanzania mainly consisted of paper and paperboard, and ceramic products. Uganda's imports from the Region grew by 40.8 percent to USD 796.3 while Rwanda's imports from within the Region also grew by 14.7 percent to USD 549.1 million in 2018.

Kenya was Uganda's main intra-regional trading partner and imports mainly included petroleum products, cement, iron and steel and pharmaceutical products. Rwanda's intra-regional imports were dominated by salt, fats, cereals, and soaps, iron and steel, plastics and paper from Uganda and Kenya. Tanzania's intra-EAC imports increased by 24.5 percent to USD 302.7 million in 2018 from USD 243.2 million in 2017. Tanzania's key imports from the EAC partners included pharmaceutical products, soaps, plastic items and other consumer goods, mainly from Kenya and Uganda. Burundi and South Sudan's imports from the EAC fell by 11.1 percent and 18.5 percent respectively in 2018. Burundi main EAC trading partners was Tanzania and imports mainly consisted of chemical fertilizers, cement and textile articles. South Sudan's main trading partners were Kenya and Uganda and imports mainly consisted of maize, sugar and manufactured commodities.

About Kenya

- The Flag

The color black represents the people of the Republic of Kenya, red for the blood shed during the fight for independence, green for the country's landscape and the white lines were added later to symbolize peace and honesty. The black, red, and white traditional Maasai shield and two spears symbolize the defense of all the things mentioned.

- [Independence](#)

Kenya became independent in 1963

- [Capital City](#)

Nairobi

- [Hotels](#)

The City of Nairobi has suitable hotels ranging from budget to 5 star category and is well served by taxis including Uber.

- [Location](#)

Kenya lies across the equator on the East Coast of Africa. It borders Somalia, Ethiopia and Sudan to the North, Uganda to the west, and Tanzania to the South and the Indian Ocean to the East.

- [Area](#)

Covers an area of 225, 000 sq miles (582, 646 sq km)

- [Climate](#)

Pleasant and favourable with plenty of sunshine all year round. Rainfall is sometimes heavy around April to May while some areas are more cloudy though without much rain around July/August.

- [Population](#)

According to the national population and housing census report of August 1999, Kenya's population is estimated to be 52.2 million people.

- [Religion](#)

40 % Protestant, 30 % Roman Catholic, 6 % Muslim, 23% other religions.

**Kenneth Apollo
Bagamuhunda**

Kenneth Apollo Bagamuhunda

Director General, Customs & Trade - EAC

Mr. Bagamuhunda is the Director General of Customs and Trade since 2017 and is part of the Executive team that leads the integration process at the EAC Secretariat.

He steers the implementation of Customs Union and Common Market in the EAC.

He has championed, guided and provided technical expertise on trade negotiations in Africa including the Tripartite Free Trade Agreement between EAC, COMESA and SADC, the EAC-EU EPAs, the EAC-US Trade and Investment Partnership and actively participated in the Africa Continental Free Trade Area Agreement. Under his stewardship, the EAC Customs Union is recognized as the most progressive on the continent with vibrant integration programs.

Before his current position, he served as a Director of Customs at the East African Community for 12 years where he championed a number of initiatives including development and implementation of the Single Customs Territory and development of various regional instruments and a number of projects and programs on Customs management in the region.

Mr. Bagamuhunda was earlier an Assistant Commissioner of Customs in the Republic of Uganda where he was instrumental in a number of strategic and operational initiatives. He was a team leader in the negotiations of the EAC Customs Law. He earlier worked with the Ministry of Finance in Uganda in the Tax Management Department. Kenneth has also lectured on the MBA program at Makerere University Business School.

He holds an MBA and a Bachelors Degree in Economics from Makerere University. He has postgraduate qualifications in Tax Policy and Trade Policy from Harvard Kennedy School. He has undertaken extensive training in customs, taxation, strategic management, trade and entrepreneurship in Europe, Japan, China, UK, USA and Uganda.

Kenneth is married with three children.

**Annette
Ssemuwemba**

BIOGRAPHY

Annette Ssemuwemba

Deputy Executive Director

Ms Ssemuwemba joined the EIF programme as Deputy Executive Director on 1st October 2017. Prior to that, she was the Chief Strategy and Results Officer and member of the Senior Leadership team at TradeMark East Africa. Eugene Torero

BIOGRAPHY

Eugene Torero

Director, Trade Policy, TradeMark East Africa

Eugene Torero is the Director of trade policy/facilitation at TMEA, a position he has held since October 2015. He was previously responsible for the TMEA South Sudan Country Office where he was responsible for the design and implementation of the customs development and trade facilitation programme in South Sudan. Prior to joining TMEA, Eugene held various positions within Rwanda Revenue Authority including that of leading customs services from 2005 - 2010. Eugene was a member of the Rwanda doing business task force from 2007 to 2010 and oversaw Rwanda's reform efforts on the trading across borders and tax payment indicators of the famous World Bank Doing Business report.

Kevin Lewis Safari

BIOGRAPHY

Kevin Lewis Safari

Kenya Revenue Authority Customs and Border Control, Commissioner Biography

Kevin Lewis Safari has over 24 years' experience in Customs and Tax Administration. He has worked in various functions including Customs, Internal audit, Domestic Taxes and risen through the ranks to become Commissioner of Customs and Border Control. A seasoned reformer in Customs modernization program, he pioneered the implementation of Kenya's Simba 2005 System in 2005. Commissioner Safari is an expert in Customs Enforcement, in which he has made significant contribution towards its advancement and automation. The landmark installation of the Customs Cargo Scanners, the K9 Programme, the Marine Unit and the revamped Customs Patrol Units are some of the initiatives under his leadership.

Commissioner Safari is a firm believer in Regional Integration. Recognizing that the Regional Electronic Cargo Tracking System (RECTS) is the future of Customs Enforcement on cargo under Customs Control, his vision is to see RECTS expanded to a continental initiative, leveraging on the recently inaugurated AfCFTA, in order to seamlessly facilitate trade in the entire continent.

He is conversant with the huge responsibility of Customs to facilitate secure trade across borders, and the challenges that come with it, and is committed and ready to apply his knowledge, skills, networks and creativity to take Customs to the next level.

A Formula 1 enthusiast, Commissioner Safari is married with kids. He also loves artwork and to rear goats. He is an active member of the Rotary Club of Karengata and the Kenya Red Cross Society.

BIOGRAPHY

Dr. Heba Diab

Dr. Heba Diab

Dr. Heba Diab works at the U.S. Embassy in Nairobi as the Regional Advisor for the Export Control and Border Security (EXBS) Program. The EXBS program seeks to prevent the proliferation of weapons of mass destruction by working with partner countries to strength export control and border security best practices. Prior to being hired by the U.S. Department of State, Dr. Diab earned her PHD in Biochemistry and was conducting research on neurological disorders at the National Institutes of Health. She then joined the Office of Cooperative Threat Reduction at the Department of State where she led biosecurity initiatives in Africa, the Middle East, and Southeast Asia. She also led Ebola recovery initiatives in Guinea, Liberia, and Sierra Leone, and worked to develop programs that coordinate public health and law enforcement sectors to better respond to disease outbreaks.

Dr. Chekwoti

BIOGRAPHY

Dr. Chekwoti

Dr. Chekwoti heads the academic department at trapca, ESAMI. He holds a PhD in economics from the University of Dar es Salaam. Before joining trapca, he was previously a lecturer of Economics at Makerere University, Uganda. He has been involved in various researches and consultancies on trade policy as well as development issues. His research interests include trade reforms, trade in services, innovation and firm competitiveness.

**Mr. Francois
Kanimba**

BIOGRAPHY

Francois Kanimba

Mr Francois Kanimba graduated in 1983 as an engineer in Statistics and economics from the European Training Centre for Developing Countries in Paris, France. He has been a key player in the Rwanda economic management since 1984 up to date. He was the team leader of the negotiating Committee of the first Structural Adjustment Reform program in Rwanda in 1990. He has been successfully the chief economist in the office of the World Bank representative in Rwanda from November 1995 to June 2000. He joined the Centrak Bank as a Deputy Governor in June 2000 and Later on he was appointed Governor of the Central bank in 2002 and assumed that function for a period of 9 years . Under his leadership, the monetary policy implemented by the National Bank of Rwanda contributed to build the macroeconomic stability of the country by achieving one digit inflation rate and a stable exchange rate at a time when the external aid flows to the country has been increasing significantly. The GDP growth rate has been over 6%.

He joined the Cabinet of Ministers led by HE President Paul Kagame in 2011 and was appointed Minister of Trade and Industry. Under his leadership and for a period of 6 years, the Ministry of Trade and Industry, extended to EAC Affairs coordination since October 2016, developed and implemented national key strategies to foster regional integration, particularly in the East African Community Region and then reduce the Country Trade Balance while accelerating job creation to reduce the levels of poverty and unemployment. He / focused on 4 important areas, namely:

- Development of Trade Logistics and Distribution Services Strategy to transform the current bottleneck of being a landlocked country into an opportunity by transforming Rwanda into a Regional Trade Logistics Hub and at the same time unlocking the huge potential the country has in the Horticulture sector.
- /Development of a comprehensive Cross Border Trade Strategy to remove the non tariff barriers to cross border trade. The main deliverables include a comprehensive cross border market infrastructure development program, a capacity building and access to finance program targeting cross border traders, mainly women to scale up their cross border trading operations.

BIOGRAPHY

**Mr. Francois
Kanimba**

- The organization of domestic agro-value chains, particularly, Rice, Maize, Potato and Dairy value chains, to increase competitiveness through building intra-value chains linkages.
- Implementation of a comprehensive SMEs development strategy addressing the main constraints affecting the growth of SMEs, namely access to capital, access to market and access to technologies. Recently he joined the private sector to Support the SMGF Management team to set up a new business model and prepare a 5 years business plan to be used to attract new investors to diversify and grow the portfolio to transform the institution from the current loss making status to a profit making organization. The priority value chains identified are in the broad area of agribusiness, starting with the wheat and spirulina value chains where SMGF has already taken significant exposure. Currently, Mr Kanimba Francois is mobilizing private investors and the Farmer's cooperatives to develop a partnership model to establish a Wheat Commercial Farming Company with an underlying objective of building linkages between wheat milling industry and domestic wheat farming through doubling the productivity of wheat farming from the current poor level of less than 3 tons/ha to 6 tons /ha, by applying new technologies to improve the soil fertility, including bio-innovation technologies. Achieving such levels of productivity will significantly cut down the cost of production of domestic wheat which will compete with imported wheat so far used by the wheat milling industries operating in the country.

Martijn Boelen

BIOGRAPHY

Martijn Boelen was recently appointed as EU Trade Adviser in the EU Delegation to Kenya and DG Trade focal point for the EAC region. Before joining the European Commission in his first post in the EU Delegation to Pakistan in 2015, he was employed for 15 years by the Dutch Government, more particularly by the Ministry of Finance. About Kenya

Kenya is located in East Africa. It covers 581,309 km² (224,445 sq. mi) of land, and a population of approximately 48 million people. Kenya is a key regional player in East Africa. It is a founding member of the East African Community (EAC) and perceived as the Eastern and Central Africa's hub for Financial, Communication and Transportation services.

Kenya's economy is robust and maintains a liberalised external trade system. The economy is driven mainly by the service and industrial sector which account for 66% and 19% of GDP growth respectively. Agriculture is also a significant contributor to Kenya's GDP, it employs 75% of the workforce and accounts for 15% of the GDP. The principal cash crops are tea, horticultural produce, and coffee. Kenya's economy and the government of Kenya is generally investment friendly and has enacted several regulatory reforms to simplify both foreign and local investment.

In 2017, Kenya ranked 92nd in the World Bank ease of doing business rating from 113rd in 2016 (of 190 countries). Its economy is projected to rebound to GDP growth of 5.6% in 2018 and 6.2% in 2019.

The Capital

Nairobi is the [capital](#) and largest city of [Kenya](#). The city and its surrounding area also form the [Nairobi County](#). The name "Nairobi" comes from the [Maasai](#) phrase *Enkare Nyrobi*, which translates to "cold water". The phrase is also the Maasai name of the Nairobi River, which in turn lent its name to the city. However, it is popularly known as the "Green City in the Sun" and is surrounded by several expanding villa suburbs. Residents of Nairobi are known as *Nairobians*.

Founded by the British in 1899 as a simple rail depot on the railway linking [Mombasa](#) to [Uganda](#), the town quickly grew to become the capital of [British East Africa](#) in 1907, and eventually the capital of a free Kenyan republic in 1963. During Kenya's colonial period, the city became a centre for the colony's coffee, tea and [sisal](#) industry. Nairobi is also the capital of the Nairobi Province and of the Nairobi District. The city lies on the [Nairobi River](#), in the south of the nation, and has an elevation of 1795 m above [sea-level](#).

Nairobi is the most populous city in [East Africa](#), with a current estimated population of about 3 million. According to the 2009 Census, in the administrative area of Nairobi, 3,138,295 inhabitants lived within 696 km² (269 sq mi). Nairobi is currently the 12th [largest city in Africa](#), including the population of its suburbs.

Nairobi is now one of the most prominent cities in Africa politically and financially. Home to thousands of Kenyan businesses and over 100 major international companies and organisations, including the [United Nations Environment Programme](#) (UNEP) and the main coordinating and headquarters for the UN in Africa & Middle East, the United Nations Office in Nairobi (UNON), Nairobi is an established hub for business and culture. The [Nairobi Stock Exchange](#) (NSE) is one of the largest in Africa and the second oldest exchange on the continent. It is ranked 4th in terms of trading volume and capable of making 10 million trades a day. The Globalization and World Cities Study Group and Network ([GaWC](#)) defines Nairobi as a prominent social centre

Immigration Requirements

Exempted Countries

Citizens of the following countries do not require a visa to enter Kenya:

Bahamas, Barbados, Belize, Botswana, Brunei, Burundi, Cyprus, Darussalam, Dominica, Ethiopia, Fiji, Gambia, Ghana, Grenada, Jamaica, Kiribati, Lesotho, Malawi, Malaysia (For less than 30 days stay), Maldives, Mauritius, Nauru, Namibia, Papua New Guinea, Rwanda, St Kitts & Nevis, St Lucia, Saint Vincent & the Grenadines, Samoso, San Marino, Seychelles, Sierra Leone, Singapore, Solomon Islands, South Africa (For less than 30 days stay), Swaziland, Tanzania, Tobago, Tonga, Trinidad, Turkey, Tuvalu, Uganda, Vanuatu, Zambia and Zimbabwe.

Please ensure the following;

- Passport must be valid for a period of at least one (1) month after departure from your respective country.
- Valid international certificate of vaccination against yellow fever required for persons aged above one year.
- Letter from the employer stating purpose and period of visit. Applicants attending training, conferences, workshops and courses need to provide a letter of invitation with telephone numbers in addition to a letter from the employer.

Kenya Visa Requirements

Transit Visa Requirements

- You require an onward Ticket to apply for a Transit Visa

Entry Requirements (On Arrival)

- Passport Valid for at least Six Months
- eVisa Printout from www.eCitizen.go.ke
- Travel itinerary
- Supporting letter e.g. letter from company or Invitation letter for business visits/family visits or hotel bookings/details about places to visit if going as tourist.

Visa on arrival

Citizens of the following countries are eligible to visa on arrival at the point of entry to Kenya (airport or boarder post):

Bolivia, Burkina Faso, Cambodia, Cape Verde, Comoros, Democratic Republic of the Congo, Djibouti, Guinea-Bissau, Iran, Laos, Madagascar, Maldives, Mali, Mauritania, Nepal, Nigeria, Palau, Rwanda, Saint Lucia, Samoa, Seychelles, Sierra Leone, South Sudan, Sudan, Timor-Leste, Togo and Tuvalu.

Visa from a Kenyan Embassy

Citizens of the following countries require a visa that cannot be obtained online or on arrival at the airport, this must be done in advance through a Kenyan Embassy near them: Afghanistan, Armenia, Azerbaijan, Cameroon, Democratic People's Republic of Korea (North Korea), Eritrea, Iraq, Kosovo, Lebanon, Libya, Mali, Palestine, Senegal, Somalia, Syria, Tajikistan and Yemen.

Transport in Kenya

You will arrive at the Jomo Kenyatta International Airport, 16km south east of Nairobi, Kenya. Facilities at the airport include a bank, bureau de change, a lost baggage office, telephones, medical aid, a bar and restaurant, duty free shops, a post office, tourist information, and hotel reservations.

If your host has not organized for your airport transfer, airport taxis are available for each scheduled flight arrival or departure at the Airport. They are recognizable by their yellow colour and the taxi sign on top of the car. The taxis do not have a meter and all fares must be negotiated. The price of the rates varies according to the time and the district of destination. Should you pay, please ensure you get a receipt.

Matatus (minibuses, pickups used as public transport) and buses can be used in Nairobi – but check with office/hotel before using them, know where you are going and when to get off.

We recommend that you use UBER for taxi services.

Accommodation

We highly recommend that you book your stay from a list of hotels prescribed by your host. If you would prefer to book a different hotel consider hotels within close proximity to the meeting venue. Ensure you/ your host clear any outstanding bills before checking out of the hotel.

Weather

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
High (°C)	26	26	26	25	24	23	23	23	25	26	25	25
Low (°C)	11	11	12	13	12	10	9	9	10	11	13	12
Prec. (mm)	4	4	8	15	13	5	3	4	4	7	14	9

Health Requirements

It is advisable that you get your yellow fever vaccination 4-6 weeks prior to your travel, and carry your yellow fever vaccination card along. Also you may need to take prescription medicine before, during, and after your trip to prevent malaria, and carry a bug repellent cream to prevent you from mosquitoes and other bug biting.

Personal Safety & Security in Kenya

There are specific areas of Nairobi that must be avoided particularly at night, therefore do not go to any parts of the city you do not know and ensure that all trips across the city are planned so that you do not get lost. The City Centre is safe during working hours, it can be deserted at the weekends/public holidays – keep to streets where there are plenty of people.

To avoid being a victim of crime, follow the common sense advice below. If you are staying in a hotel, please stay in the recommended hotels.

- You must carry a form of identification with you at all times (copy of passport/KRA Access card).
- Be alert at all times – robbery can occur at any time of the day.
- Keep to the main parts of Nairobi and do not go to places that you do not know.
- Keep to places where there are plenty of people.
- Know where you are going, a safe route to get there, do not take short cuts.
- Always seek advice about where it is safe to walk and **never walk at night**.
- Do not use your cell phone in a careless manner in the streets.
- Be particularly wary of people hanging around outside hotels; it is a favourite place to catch tourists and mug them.
- Ignore the street children and people coming up to you in the streets with hard luck tales. Street children can become violent and the latter may be part of an elaborate scam or they might just simply be pickpockets. The best thing to do is just to walk on and ignore them.
- Do not carry large sums of money when shopping, wear expensive jewellery & carry handbags with caution.
- Do not accept food and drink from strangers; visitors may be drugged and then robbed.
- Lock car doors, and only open the window 10cm – particularly in traffic jams.
- Put bags on the floor of the vehicle not on the seat, keep valuables out of site.

If Robbed:

- Do not resist, the thief may become violent.
- If in the street be aware that shouting may result in the death or serious injury for the thief or worse, for an innocent bystander. As passers-by can turn into lynch mobs afterwards. This is particularly the case if the thief is a street kid or someone considered a public nuisance.
- If you see an incident in progress, it is usually better not to intervene. Go to a safe place and report the incident to the police.

Electricity

The standard voltage is 240 V and the standard frequency is 50 Hz. Power sockets are of type G. You are therefore advised to carry an adapter if necessary.

Places to visit

1. **Nairobi National Park:** Nairobi National Park is a unique ecosystem by being the only protected area in the world close to a capital city. The park is located only 7 km from Nairobi city centre. Major wildlife attractions are the Black rhino, lion, leopard, cheetah, hyena, buffaloes, Giraffe, zebra, wildebeest, elands and diverse birdlife with over 400 species recorded. It's an awesome place to spend your weekends and also houses other attractions include the Ivory burning site Monument, Nairobi Safari Walk, the Orphanage and the walking trails at hippo pools.
2. **Nairobi National Museum:** The Nairobi National Museum was founded in 1920 and aims to interpret Kenya's rich heritage and offers a one stop for visitors to sample the country's rich heritage both for education and leisure. It is open on all 356 days throughout the year from 0830hrs - 17300hrs.
3. **Giraffe Center:** The Giraffe Centre was started by Jock Leslie-Melville, the Kenyan grandson of a Scottish Earl, when he and his wife Betty captured a baby giraffe to start a programme of breeding giraffe in captivity at their home in Langata – home of the present centre. Since then the programme has had huge success, resulting in the introduction of several breeding pairs of Rothschild Giraffe into Kenyan national parks. It is located at Karen, approximately 5 kilometres from the centre of Nairobi.
4. **David Sheldrick Trust Elephant Orphan Centre:** Dame Daphne established the Trust in honour of her late husband David Sheldrick, the founding warden of the Tsavo National Parks, and a pioneer conservationist in Kenya. The orphanage caters for the welfare of orphaned Elephants and Rhinos who are raised in the sanctuary and eventually released back to the wild.
5. **Kenyatta International Conference Centre (KICC):** The KICC is an internationally renowned venue for conferences, meetings, exhibitions and special events and among the tallest buildings in Nairobi. For Ksh. 200 bob you can go to the rooftop and enjoy a marvelous and exclusive view of the city.
